

SEL ENVIRONMENTAL LIMITED
FIRE SAFETY POLICY

Fire is a significant hazard to the safety of both buildings and their occupants. SEL Environmental Ltd. acknowledges and accepts its responsibilities under current fire legislation - Regulatory Reform (Fire Safety) Order 2005 and will proceed with due diligence to address these by the provision of suitable, sufficient and risk appropriate fire precautions and management systems to enable the safe evacuation of employees and others from our premises and to minimise fire damage should a fire occur.

Policy Standards

The following standards shall be adopted to discharge this policy.

Fire Precautions

- Suitable and appropriate means for giving warning in case of fire will be provided.
- Suitable and appropriate routes, exits and means of protection will be provided to enable occupants of buildings to evacuate quickly and safely in the event of fire.
- Sufficient and suitable emergency lighting will be provided where necessary.
- Suitable fire signage will be provided.
- Sufficient and suitable fire fighting equipment will be made available.
- Structural fire precautions for all buildings will, so far as is reasonably practicable, comply with current good practice in the construction industry with the control measures to be adopted based on risk assessment.
- Suitable systems of maintenance are provided for all premises, facilities, equipment and devices to ensure that these remain in an efficient state, efficient working order and good repair.
- Provision of comprehensive and relevant information and adequate training for staff.

Management System

SEL Environmental Ltd. has a health and safety management system which is set out in the Health and Safety Policy. The arrangements for fire safety are included in the health and safety arrangements.

Fire Marshal

The appointed person(s) will be responsible for the safe evacuation of designated areas and to act as fire safety coordinator when necessary.

Monitoring and Review

This policy will be reviewed annually to monitor any significant changes in the structural layout of the building or the introduction of new or alternative working practices.
